80/20 rule, defined, 142

## A

A List Apart, 256

accessibility, 5, 135–37

access for all, providing, 135

alternative media, providing 143

badly labeled links, 142

beyond disability, 135

checking, 30

CMS and, 167

complaints, responding to, 138, 146

connection speed and, 135

developer training and, 146

Disability Discrimination Act (U.K.), 138

expense of, 135

financial benefits of, 137

goal, long-term, 141

hard-to-read text and, 144

JavaScript and, 143

legal obligations and, 137–40

long-term strategy, 148

maintaining, 145

misunderstanding of, 135

of site, checking, 30

poorly described images, 142

problems, overcoming 141

return on investment and, 135

rules, for content providers, 146

search engines and, 136

Section 508 (U.S.), 138

team, getting on board regarding, 148

testing, 144

automated, 145

type of device and, 135

user testing and, 114

W3C guidelines, 138–40

accessibility policy

complaints, dealing with 146

creating, 140–47

elements of, 140

goal, 141

maintaining accessibility, and 145

aceofcakestv.com, aesthetics of, 6

acronyms, avoiding, 99

Adobe, support, feedback

mechanism, 28

Adobe AIR, 254

Adobe Contribute, 163

Adobe Flash. *See* Flash

advertising, pay-per-click. *See*

pay-per-click advertising

advocate, website owner as, 10

Adwords. *See* Google, Adwords

aesthetics, 5

bias toward, 5

comments on, ignoring during

user testing, 119

AJAX, and JavaScript, 179

ALT attribute, 136, 137, 142

Amazon, and widgets, 250

anxiety, due to lack of role

definition, 8

API, defined, 249

Apple

importance of design and, 64

selling to existing customers

and, 224

community, 223

applications, providing killer

content via, 105

Articlesbase, 210

ASP, 178

assets

created during development, 51

intellectual property, 51

ownership of, specifying in brief,

51

audience, targeting, 208

audio, converting to text, 143

automated performance checker, 30

as quantitative analysis tool, 26

## B

banner ad, printing, 132

barrier to entry, lower, with CMS,

151

BBC, website, as example of screen resolutions, 81

Berners-Lee, Tim, 126

cascading stylesheets (CSS)

and, 129

semantic web and, 251

best practice

confusion regarding, 3

evidence of, by web agency, 59

BestBuy website, as example of

poor adaptation, 144

bigger picture, keeping in mind, 10

blame game, avoiding, 25

blogs

as broadcast tools, 225

as CMS, 165

marketing and, 210

BMW, removal from Google, 196

Boagworld, 277

as example of page in browser

and for print, 131

forum, 236, 258

brand

perception, changing via

community, 222

personality

creating, 76

example of, 76

brand guidelines, need for, 76

branding. *See* corporate branding

brief

accessibility of deliverables,

specifying, 50

benefits of, 44

budget, revealing in, 48

clearly defining tasks with, 44

communication, improving

with, 44

context

elements to include, 46

providing in, 45

costing accuracy, improving

with, 44

defined, 43

## Index

- deliverables, defining, 49
  - delivery dates, specifying with, 44
  - developer suggestions, encouraging, 47
  - development context, providing with, 44
  - example of, 47
  - expectations, setting with, 44
  - ownership of assets, specifying, 51
  - requirements, stating in, 46
  - scope creep, limiting with, 44
  - standard of code, defining, 50
  - wish list, avoiding, 54
  - writing, 45–53
  - broadcast tools, 224
  - browser
    - alternatives to IE, 181
    - as factor in scrolling, 82
    - checking site on multiple, 30
    - coding for multiple, 128
    - compatibility issues, 216
    - defined, 180
    - graded support, in Yahoo!, 181, 182
    - plug-ins, 182–84
    - testing, 181
    - text size and, 144
    - working with, 180–84
  - BrowserShots, 30
  - budget
    - compromise regarding, 12
    - revealing, in brief, 48
  - build phase, content population during, 11
  - building, as part of website management cycle, 14
  - bulleted lists, 104
  - C**
  - caching, 181
  - call to action, 216
  - Camtasia Studio, 153
  - captions, 143
  - card sorting
    - best uses for, 98
    - description of exercise, 97
    - qualitative vs. quantitative, 97
    - using to structure content, 97
    - using to understand users' mental models, 97
  - Carsonified, “Future of” conferences, 258
  - cascading stylesheet (CSS), 130–34
    - capturing cell phone market, 133
    - customizing pages and, 134
    - printing websites and, 130
    - responding to change and, 134
  - cash flow, improving, via phased development, 55
  - Casting Words, 143
  - cell phones
    - as emerging platform, 252
    - as part of long-term strategy, 254
    - designing for, 135
    - environment while using, 253
    - market growth, 133
    - plug-ins and, 183
    - screen variations, 253
    - separating content from design and, 133
  - challenges, overcoming with web technologies, 23
  - chat room, 229
  - ClickTale, 83, 216, 217
  - client, focused on by speculative design, 54
  - client-side application, defined, 180
  - client-side code, defined, 180
  - code
    - bloated, 128
    - hard-to-maintain, 128
    - standard of, specifying in brief, 50
  - ColdFusion, 178
  - colors
    - combining, and readability, 144
    - corporate, on the web, 79
    - on screen vs. on paper, 79
    - viewing on multiple computers, 80
    - web-safe, 79
  - comments, 229
    - responding to, 234, 239
  - communication
    - getting permission to communicate, 231
    - importance of personality, 237
    - improving
      - with brief, 44
      - with success criteria, 24
  - open and honest, 232
  - personal, 231
  - regularity vs. frequency, 230
  - strategy, 231
  - trigger-based, 230
  - via YouTube, 247
  - video demonstrations, 247
  - video streaming, 247
  - video testimonials, 247
  - voice, knowing, 231
  - with users, successful, 230–33
- community
    - being open and honest, 232
    - boundaries, setting, 234
    - brand perception, changing with, 222
    - broadcast tools, 224
    - building, with interactive tools, 228
    - comments, responding to, 234
    - communicating with users, 230–33
    - conflicts, resolving, 235
    - conversation, nurturing, 234
    - cost of sale, lower, 224
    - costs, reducing via, 223
    - demand-based growth, 236
    - desire
      - to associate, 237
      - to express, 238
      - to impress, 238
      - to reciprocate, 238
    - discussion, seeding, 234
    - early days, 233
    - existing, vs. building, 229
    - features, pruning, 236
    - feedback tools, 226–27
    - feeding, 237–39
    - fostering, 233–39
    - growth, controlling, 233
    - how to communicate, 231
    - incentives to participate, 237
    - interactive tools, 228–29
    - leaders, 236
    - letting users vote on content, 238
    - long term, committing to, 240
    - moderation, avoiding excess, 235
    - need for, establishing, 240
    - power of, 222–24
    - resources, gathering, 240

- site promotion and, 223
- starting small, 234
- tone, setting, 230
- tools, 224–29
- website, improving with, 222
- when to communicate, 230
- competition
  - information about, including in
    - brief, 46
  - online strategy, understanding, 33
  - performance versus, 14
  - quantitative analysis, 33
  - questions to ask about, 33
  - reviewing, 32
  - testing, 33
  - website, testing, 111
- competitive analysis, 32
- complaints, dealing with, 138, 146
- compromise, regarding content and priorities, 12
- content
  - applications, 105
  - as less important than context, 90
  - breaking into sections, 104
  - bulleted lists, 104
  - changing based on user requirements, 135
  - clear, 102
  - compromise regarding, 12
  - computer-friendly, 251
  - context. *See* context
  - creation, 6
  - deciding what to leave out, 92
  - defining, before design, 87
  - duplicating, as SEO technique, 197
  - editing, 105
  - engaging, 102
  - flexibility, in CMS, 159
  - front loading, 103
  - graphics, 105
  - guardian, website owner as, 11
  - headings, 104
  - how to reduce, 93–96
  - identifying, 105
  - important, highlighting, 104
  - improving, 200
  - increase in importance, 73
  - informed by context, 92
